Keep in touch and in sight on the Web.

Ready to share in HD? The Manhattan HD Webcam 760 Pro XL helps improve online communications, instant messaging, VoIP and social media with high-quality photos and video and better color. With simple operation and easy-to-use software, its 16-megapixel (software interpolated) CMOS lens captures crisp images and smooth, steady video to share in widescreen HD resolutions up to 720p. Automatic color balance, exposure and brightness controls help make professional-looking photos and video ready for upload to Facebook, YouTube, MySpace and more. Special, built-in filter and frame effects add customized, personal touches to images. A sensitive, built-in microphone with a stable frequency and dynamic range adds voice and sound to video recordings and ensures clear communications with VoIP and Skype, Windows Live, Yahoo!, AIM, Google Talk and other instant messengers. Windows and Mac compatibility, plug-and-play installation, compact design and a universal clip fits most flat-panel displays to help quickly connect in HD with friends and family.

Features:

- Enhance online communications, instant messaging, VoIP and social networking
- Easily capture, record and share widescreen HD photos and video up to 720p – upload to Facebook, YouTube and more
- 16 megapixel image resolution with powerful 4x digital zoom function and built-in microphone
